

# Kindererziehung

In diesen Bereich fallen alle Projekte, die in irgendeiner Weise mit Kindern zu tun haben (Für den Unterricht an Schulen gibt es den speziellen Bereich Teaching Assistance). Die Kinder in den Projekten sind meist noch sehr klein. Deine Aufgaben sind je nach Projekt unterschiedlich: Kinder in einem Waisenhaus betreuen, in einer Kinderkrippe mithelfen, Freizeitaktivitäten für Kinder aus ärmeren Gegenden mitgestalten, Strassenkinder begleiten und vieles mehr.

*“Schon Mittwoch, unglaublich! Ich bin die letzte Woche hier in vollen Zügen am geniessen! Heute waren die Eltern der Kinder im Zentrum eingeladen. Immerhin 3 Väter kreuzten auf. Wir veranstalteten Ballonspiele und kleine Präsentationen. Dieses Mal machten schon doppelt so viele Kinder bei meiner Roda mit. Ein schöner Erfolg für mich!”*

(Eindrücke aus dem Freiwilligeneinsatz von Daniela in Brasilien 2010)

## In welchen Ländern gibt es Projekte im Bereich Kindererziehung?

- Ägypten
- Argentinien
- Australien
- Belgien  
(Französisch und  
Flämisch)
- Bolivien
- Brasilien
- China
- Costa Rica
- Dänemark
- Dominikanische  
Republik
- Honduras
- Indien
- Indonesien
- Kenia
- Kolumbien
- Malaysia
- Mexiko
- Paraguay
- Peru
- Südafrika
- Thailand
- Tunesien
- Venezuela

Die Projekte sind saisonal abhängig und werden nicht im Voraus garantiert. Auch in anderen Ländern können auf Anfrage Gesundheitsprojekte möglich sein.

## Projektbeispiele

### BELGIEN (Flämisch) – Circusschool Salto Tienen

We want to improve children’s individual, social, motoric and arty development. In addition we want to encourage them to broaden their personal limits and to be more creative. We use circus techniques to obtain these goals. A little circus experience is an asset for the volunteer. He or she should be very keen on learning Dutch.

### DÄNEMARK – Kindergarten Æblehaven

The Børnehuset Æblehaven is a combined nursery/kindergarten, and it has a high proportion of immigrant children and children of underprivileged people.

We hope that the presence of the volunteer will give both staff, children and parents an intercultural learning experience.

We believe that the volunteer position at our institution offers the volunteer the opportunity to learn about Danish kindergartens and the philosophy on which daycare centres for children in Denmark are based. Being based in a mediumsize town, the placement also offers the volunteer the possibility of learning about life conditions in countryside Denmark.

### **ECUADOR – Junto con los Ninos JUCONI**

Our mission is to work with street kids and children at risk, in order to help them develop solutions to their problems and needs, in a manner that guarantees their development and well-being, and that will allow them to exercise their rights according to those laid out in the Convention on the Rights of Childhood.

The volunteer would provide direct assistance to the young people we serve by providing educational, recreational, and therapeutic services.

The volunteer needs to have some Spanish knowledge. No special experience is required otherwise, just a strong desire to learn and help as well as responsibility, professionalism, and honesty.

### **INDONESIEN – bsb + Alang Alang**

We are providing fun learning in five underprivileged neighbourhoods in Bogor and Jakarta for children of 3 - 17 years old. We offer activities like dance, drama, painting, games, storytelling etc. We hope through activities carried out by bsb + Alang-Alang and by ways of "sharing" rather than teaching; healthiness, productiveness plus other life skill could be reached. Our foundation is based on Islamic Values such as love for God, and to help one another. Because we believe that the under-privileged children will get benefits from such a program and become more useful and valuable members of their family, community, nation, and the world.

We have discussions, internal training and reading of the Quran three times a month, where everyone, including volunteers, can share knowledge, such as foreign language.

We are also implementing "Beneficent Program" and "Clean-Up Program" together with local people.

### **TUNESIEN - Voix De L'Enfant Kairouan**

The project is located in Mansoura, a suburb town 2kms south of the historic city of Kairouan. Kairouan is a medium sized city of 150,000 inhabitants in the center of the Sahel region of Tunisia. Voix de L'Enfant consists of a team of care givers in a home for abandoned infants and children in need.

Tasks the volunteer will be of assistance to the work team and support its work: taking care of the children, playing with them, helping in daily activities, provide guidance in the difficult situation. He or she could also evaluate the branch's activities and provide a link with similar associations in the country of origin.

It would be nice if the volunteer has had training or experience in any of the fields of infant care, physiotherapy, and psychology. For the soft skills, the volunteer needs to be available, patient, and a good listener. He or she must like working with children.
